

Kishan M

Backend Developer — Software Developer
Bengaluru, India — LinkedIn — GitHub

Professional Summary

Computer Science engineering graduate from Cambridge Institute of Technology North Campus, affiliated with VTU. Skilled in programming, backend development, and web technologies with hands-on project experience. Strong problem-solving abilities with knowledge of software development and Firebase-based applications. Quick learner passionate about building efficient and scalable technology solutions.

Education

B.E. in Computer Science and Engineering Cambridge Institute of Technology North Campus, Bengaluru	
2022 – 2026	CGPA: 8.4
Class XII – Science Vidyanidhi Independent PU College	
2020 – 2022	78%
Class X Jnana Ganga High School	
2019 – 2020	91%

Skills

- **Languages:** Java, Python, JavaScript, C
- **Backend:** Firebase, REST APIs
- **Web:** HTML, CSS, JavaScript
- **Tools:** Git, GitHub, VS Code, Vercel
- **Platforms:** Firebase Studio, Windsurf, Tabule
- **Concepts:** Problem Solving, Backend Development, Software Development
- **Design Tools:** Figma, Canva
- **UI/UX:** Wireframing, Prototyping, Interaction Design, User Research
- **Soft Skills:** Teamwork, Communication, Quick Learning

Experience

Intern – Dynamic Servitech Pvt. Ltd.

Aug 2025 – May 2026

- Contributed to ongoing industrial software projects
- Gained practical exposure to development workflows

Backend Developer – Rooman Technologies

Feb 2026 – May 2026

- Worked on backend development and application integration
- Hands-on experience with Firebase and deployment workflows

Certifications

- **Data Analytics Job Simulation** – Deloitte Forage, 2026
- **Software Engineering Job Simulation** – JPMorgan Chase & Co. Forage, 2026
- **Introduction to Python** – Infosys Springboard, Apr 2025
- **Dynamic Hackathon Certificate of Achievement** – Dynamic Hackathon, 2025
- **GEN AI Powered Data Analytics Job Simulation** – TATA Forage, 2026

Projects

AI Rock Paper Scissors Game GitHub

Developed an AI-based game using OpenCV and Python where users compete against the computer through real-time hand gesture recognition.

Smart Garbage Monitoring System GitHub

Smart waste monitoring system designed to improve garbage collection efficiency using real-time monitoring concepts.

Remote Equipment Monitoring and Predictive Maintenance Dashboard GitHub

AI-powered remote crane monitoring dashboard that predicts failures before they happen, reducing downtime and maintenance costs.

Kishan Portfolio Website GitHub

Personal portfolio website showcasing projects, technical skills, and development work.

Area of Interest

- Backend Development
- Software Development
- Web Application Development
- Problem Solving and Logical Thinking
- Artificial Intelligence Applications
- Database Management Systems
- Cloud and Deployment Technologies

Strengths

- Quick Learner with Adaptability to New Technologies
- Strong Problem Solving and Analytical Skills
- Good Team Collaboration and Communication
- Self-Motivated and Consistent Learner
- Ability to Work in Fast-Paced Environments
- Passionate About Technology and Innovation

Hobbies

- Exploring New Technologies and Software Tools
- Playing Strategy and AI-Based Games
- Learning Programming Concepts and Frameworks
- Watching Tech Content and Development Tutorials
- Building Small Technical Projects
- Exploring AI and Automation Trends

Career Objective

- To begin a professional career in the IT industry and enhance technical skills through real-world experience
- To contribute effectively to software development and backend engineering projects
- To continuously learn emerging technologies and build scalable software solutions
- To work in a growth-oriented organization that encourages innovation and teamwork
